Web Marketing Manager: Scott Weinrobe

Working Groups: The WiMAX Forum has organized the following working groups to address critical areas of focus in bringing WiMAX Forum Certified™ products to the marketplace:

- **Applications Working Group:** Defines applications over WiMAX that are necessary to meet core competitive offerings and that are uniquely enhanced by WiMAX. **Chairs:** Tom Tofigh, AT&T (Chair, Application Architecture Task Group); Howard Liu, Disney (Chair, Application Business Task Group);
- **Certification Working Group:** Handles the operational aspects of the WiMAX Forum Certified program. **Chairs:** Aditya Agrawal, Beceem; Ed Agis, Intel
- **Evolutionary Technical Working Group:** Maintains existing OFDM profiles, develops additional fixed OFDM profiles, and develops technical specifications for the evolution of the WiMAX Forum's OFDM based networks from fixed to nomadic to portable, to mobile. **Chair:** Robert Speidel, M/A-COM, Inc.
- **Global Roaming Working Group:** Assures the availability of global roaming service for WiMAX networks in a timely manner as demanded by the marketplace. **Chair:** Hyung Kim, KT
- **Marketing Working Group:** Promotes the WiMAX Forum, its brands and the standards that form the basis for worldwide interoperability of BWA systems. **Chair:** Mohammad Shakouri, Alvarion
- **Network Working Group:** Creates higher-level networking specifications for fixed, nomadic, portable and mobile WiMAX systems, beyond that which is defined in the scope of the IEEE 802.16 and ETSI HiperMAN standards. **Chair:** Prakash Iyer, Intel
